

# Bearden: A Place to Drive To, not Drive Thru.

**On May 11, 2023, the Knoxville-Knox County Planning Commission will vote on a possible Taco Bell drive through at 5613 Kingston Pike.**

It would take the place of the yellow building that abuts the car drop off driveway for Bearden Elementary and KAEC.

## **A Drive Thru Restaurant will:**

- Increase car traffic in a school zone and a congested area.
- Increase air pollution on the Greenway and at the schools from idling car's exhaust.
- Increase noise from the drive thru speaker, especially late at night.
- Increase danger to pedestrians using the sidewalk on Kingston Pike by drastically increasing the volume of cars entering and exiting the property..

## **Scan the QR Code for information on how you can:**

- Leave a comment on the Knoxville-Knox County Planning Commission website.
- Attend the planning commission meeting on May 11th.
- Print signs and badges to let others know about this proposed zoning change.
